**TRANSMITTAL OF SAMPLING AND ANALYSIS INSTRUCTION FOR FISCAL YEAR
(FY) 2001 AQUIFER TUBE SAMPLING**

Attached is the subject document for your information. The document incorporates comments received regarding the aquifer-sampling program for FY 2001, at a meeting on October 5, 2000, with the U.S. Department of Energy, Richland Operations Office, the U.S. Environmental Protection Agency, and the State of Washington Department of Ecology. The following are also included in the attachment:

- Fall 2000 (FY 2001) aquifer sampling tube summary table listing the sites agreed to be sampled and the analyses performed during the October/November 2000 sampling.
- Attachments to the 100-BC-5 and 100-FR-3 Waste Control Plans that list monitoring wells, aquifer sampling tubes, and seeps included in the respective waste control plans so that sampling wastes can be properly managed. The 100-FR-3 table also includes aquifer tubes along the shoreline of the Hanford Town site.
- Meeting minutes from the October 5, 2000, meeting which document suggestions made by the attendees that were incorporated in the aquifer sampling tube summary table.
